RAILROAD DIFFICULTIES.

BUTTALO, June 9. Trouble has for some time existed between the Buffalo, New York & Erie R. R. Co., and the N. Y. Control R. R. Co., at Batavia, in regard to a crossing which the former was obliged to make of crossing which the former was obliged to make of the latter's track. This the Central Company was determined to prevent and for that purpose have had for several days past a train of freight cars chained to their track directly at the point of crossing, which, together with four heavy locomotives and a large gang of men, has thus far effectually provented the crossing being made. The fire Co. applied to the Sheriff for protection and were determined to make the crossing to-day by force if necessary. Serious trouble was apprehended, but matters are now in a fair way of settlement. An injunction was this morning issued, restraining the N. Y. C. Co. from resisting the laying of the Buffalo, N. Y. & E. R. B. The injunction has been served on the Attorney and Agents of the Central Road, and the obstructions are now all baring removed from the crossing is compliance with the order. As an act of retalistion the N. Y. & E. Co., have reduced their fare from Buffalo to N. Y. to five dollars and from Rochester to New York to Southampton, their remaineration shall be the post-four dollars.

Mr. Beecek of Va. moved to insert: "ten" instead of "five." He said that these vessels are needed in the Navy for the Peace Establishment, which, in view of our fureign relations, should be coraplete, to prevent war—for weakness invites aggression, while strength repels. He recommended this as a measure of economy.
